January 13th, 2017 - Essex Celebrates 25 Years

The Essex Group set out on our mint journey 25 years ago. Not to get rich or famous but out of a desire to tap into the complex nature of one of the most popular flavors on earth. Our goal of having fun while making a difference has served us well. Our journey at times has been taxing and we have been stranded in strange lands, only to find that the strong relationships of those we travel with make the difference. As a young man my parents told me the importance of the people we hang around with, and they will either get you into trouble or inspire you to be your best.

After 25 years I am here to tell you that the people we have associated with have made all the difference and we say a heartfelt thank you to those of you who have believed in us, helped us and worked side by side with us to truly extract the gift of the mint plant and make it available to the world. We find this quest of creation and discovery with strong relationships along the way as our contribution and legacy to life itself. So with this said please take a moment, eat a mint candy and celebrate in thought with us as we pay tribute to this milestone in the journey.

Sincerely,

Mark Morlan

Essex CEO and Founder
